Moving Beyond COVID-19: Injury Science Saves Lives

March 11, 2021
4:00-5:30 PM EDT

Moderated by:
Carol Runyan,
Program for
Injury Prevention,
Education &
Research (PIPER)

Dr. Carol Runyan is a part-time Professor at the Colorado School of Public Health where she is the Founding Director of the Program for Injury Prevention, Education and Research. She now resides in North Carolina where she is Professor Emeritus at UNC's Gillings School of Public Health where she taught for most of her career and developed and directed the UNC Injury Prevention Research Center for more than two decades years. Her training is in public health education, epidemiology, and social policy.
