2018 highlights

New LSS CHOICES shelter for victims of domestic violence

In early January 2019, the new shelter opened after a year of construction. It replaced an undersized and dated shelter, which only had 51 beds yet an average daily census of 71. The new shelter provides safety to victims and their children who are escaping abusers in an environment conducive for healing.

Online convenience for food pantry clients

Our food pantries transitioned to a new model where our clients order shelf-stable items through our online ordering system or by calling a toll-free number. With these updates, clients now wait less than 30 minutes to receive their order rather than up to two hours under the former system, which dignifies and honors the valuable time of our clients.

The Health Center at Faith Mission expands services

The Health Center at Faith Mission continues to expand services and increase the number of patients seen. During this fiscal year, addiction recovery counseling and support services, tobacco cessation support, and a clinical pharmacy were added.
