HOW WILL THIS WORKSHOP HELP OUR CONGREGATION?

Stewardship is not just about how we fund our ministry; it is about how we live, how we share, and how we equip households as the center for the faith practice of generosity.

Send your congregation's Stewardship or Christian Education Team, or 2-7 folks of any age who are willing to learn, laugh, and work together in a cross-generational workshop setting. The workshop is interactive and will hold the attention of even the youngest and oldest participants. Your congregation will receive an introduction to *The Generosity Project* Curriculum—five sessions and worship with a detailed planning guide—as well as take home activities and a curated resource list to use in your congregation to cultivate generosity across the lifespan.
