Presented by:

In Cooperation with:

Dear Colleagues:

The third round of examinations for candidates of the American Board of Optometry will be given in July 2012. The NJSOP supports the concept of voluntary Board Certification in optometry as proposed by the ABO and has pledged its assistance in helping to prepare doctors to achieve this credential. As you know, NJ has one of the highest number of ABO Board Certified optometrists in the United States.

Accordingly, I am pleased to announce the creation and availability of two special continuing education programs which have been structured to assist those doctors seeking ABO Board Certification. I have asked Dr. Joseph Pizzimenti, President of Optometry Board Certified, LLC to present their model curriculum which parallels the detailed outline of the range of topics to be probed in the ABO Board Certification examination. Dr. Pizzimenti and his team have presented their courses nationwide including at Vision Expo, SECO and various state association conferences.

I am sure that you will find this dynamic and rapid-fire educational experience to be rewarding whether you choose to attend and secure the regular continuing education credits needed for biannual re-licensure or because you wish to prepare yourself for the July ABO Board Certification examination. Those doctors who have called upon us to provide a greater range of core optometric education beyond traditional ocular pathology and pharmacology will find much to their liking with these sessions.

I encourage all NJSOP members to consider the attainment of the ABO Board Certification credential and I believe that you will enjoy the academic exercise, the interaction with your colleagues and a sense of professional satisfaction when complete.

Sincerely,

William R. Marcolini, O.D., FAAO
President, New Jersey Society of Optometric Physicians

**Please visit the American Board of Optometry's website:
www.ABOPT.org for more information about the complete
Board Certification process.**

**Click on the red "Get Certified" tab at the top of the page and follow the
instructions to obtain Active Candidate Status.**
